OH! THE RESURRECTION

(by Garry Bushell)

The noted Italian StreetPunk band KLASSE KRIMINALE has teamed up with veteran London Oi! band THE GONADS to release a joint e.p. called 'Oi! The Resurrection' (out on Havin'A Laugh Records)

The limited edition e.p. features two songs from each band. KLASSE KRIMINALE has contributed 'Klasse Kriminale' and 'Land Of Hope & Glory' - GARRY JOHNSON's poem given a haunting musical arrangement.

THE GONADS have recorded two exclusive tracks, 'SVI' and a new ska arrangement of 'Getting Pissed'.

A spokesman for both bands said last night: "We are celebrating our music and our rebel culture together. Our message to the world is Punk is back! Oi, Oi, Oi!"

GARRY JOHNSON, the respected Punk poet, said he was "Delighted by Klasse Kriminale's brilliant reinterpretation of my words; you have given the poem extra depth and texture."

Garry is working on re-issuing his 'THE STORY OF OI!' book, with a comprehensive update about the last 25 years of the StreetPunk scene. The book will include his original poetry collection, "The Boys of The Empire".

THE GONADS are featured on the new 'Kings Of StreetPunk' album which is released on the GSR label at the end of August. The collection includes tracks by Rancid, the Madonnas, Bad Manners, the Cockney Rejects, the Business, the East End Badco, the Orgasm Guerrillas, the Postmen and the first new 4-Skins song for two decades. Garry, Hodges and H from the original band are now working on a studio album. THE GONADS are also releasing a 'Go Ska With The Gonads' e.p. later this summer.

KLASSE KRIMINALE

NEW KK ALBUM OUT FALL '07 ON HAVIN'A LAUGH

STRENGTH & UNITY is an album that can be the heritage and testament for kids and young Punk bands who are in a garage in this moment. This album encloses a message to all that don't believe to the rehandle diluted and bored punk from today. Without play upon words Marco Balestrino spits in face the thruth refinding the real spirit of Punk. But who better of him could do it? He made a style of life of Real Punk. He followed the Oi! Skinhead and Punk movement before like a fan and them like protagonist since 1980... Punk is 30 years old and how it doesn't seem to frighten nobody. In

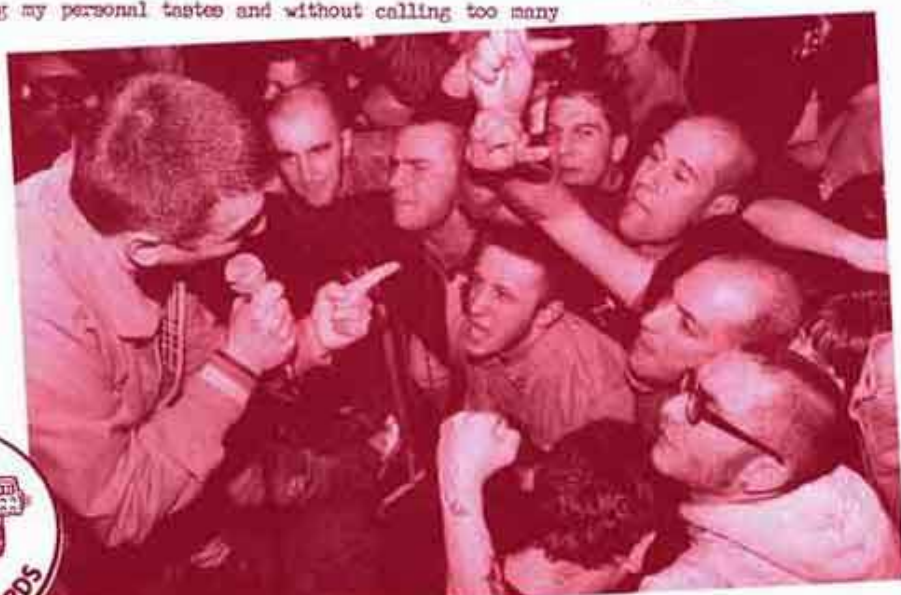

fact it's possible to found its tracks on fashion, on literature, on art, on entertainments... Much was been altered, from its true nature, a lot of thruths was been changed, just like all the legends, the thruths and the lies about Marco Balestrino and Klasse Kriminale. Songs that comes from the heart of a very rebel generation. This is an important connotation for freedom and art. 15 tracks that feed on classic Punk, Oi! spirit, HC rage and style. A style borns from necessity to live together, to sweep away the prejudices, the school and the family. A style made of very loud music, gigs, Punk festivals and tours. The album was been completely D.I.Y. and recorded thanks to the help of friends, sometimes using invented studios at the last instant. At the same way Marco did this for many years with his fanzine Kriminall Class, cutting photos and articles, interviewing and meeting many people, from Joe Strummer to kid's next door. Today, instead of that, Marco recorded the guitars, thanks to a computer's help, at Tiziano Bellucci's home (he's his hold friend and sound engineer that recorded all Italian Punk, from Nabat to Asociale, in his studio in Castelfranco (MO), closed since 10 years). Then they recorded drums in a practic room of the 'Vecchio Son' in Bologna where Steno, frontman of the legendary Nabat, works. At the end they recorded voices and mixed all at 'One Voice Studio' with Daniele Giordana (live engineer of bands like Hatebreed, Madball, SOJA, Agnostic Front, Dropkick Murphys...).

100% Klasse Kriminale with the unmistakable Marco's voice, mixed to Emanuela's voice and to the other friends's shouts at chorus. All is enriched by Ska and Reggae songs and by the enterpretation of the poem 'Land Of Hope And Glory' wrote by the famous Oi! poet Garry Johnson and appeared on the back cover of the legendary Streight Thru Oi! album in 1981. **STRENGTH & UNITY** proves that there is still a place for honesty and passion where to say no is still important. **RELEASE DATE: FALL '07 ON HAVIN'A LAUGH RECORDS (HALCHO2)**

"... **STRENGTH & UNITY** is the album I made easier than others, without too many stress... Perhaps because in the past I worked and met too many people that boarded the lucky Punk Rock's cart, only for opportunism taking with them only hypocrisy. Emanuela made very good melodies and immediate and telling songs, like I wanted to make from too many years. Tiziano Bellucci arranged the songs following my personal tastes and without calling too many explanations from me. JJ at drums made the same. In fact after the first writing out of songs, all was perfect, like if they could read on my mind. Now it matters to me only that kids could be to listen this album. The street is our stage..."

(Marco Balestrino)
